

BULLS SWING REPORT

TESTING SUPPORTS 9-5-23

MARKET COMMENTARY

With volume drying up and traders lackadaisical, it's no surprise that we are seeing a pullback in the market. Key levels are being tested with SPY and QQQ at the 50 day moving averages. If these levels hold we'll take that as a positive for our bullish thesis.

Energy, small cap tech and housing are showing relative strength. While there are a number of stocks to watch in energy and housing, few will beat their respective leveraged ETFs. ERX and NAIL are on watch.

Focus list: AAPL, AMZN, GOOGL, MSFT, TSLA, NVDA, META, ADBE, XPEV, MNDY, MEDP, OXY, VLO, MRO, NOW, TEAM, ARRY, PANW, CVNA, WW, DLO, FLR, SPOT, SMG, MAR, PLTR, LI, AXON, UBER, RACE, CELH, LRCX, ROKU, YETI, DASH, NOW, RIVN, MELI, RIVN, W, ISRG, SIG, CRWD, SHOP, WW, TOL, LEN
